The abuse of Mr. Maine has only served to kindle Republican indignation. The nuncrous necessions have landle and Democrats of local induced, and have everywhere encouraged the party-greatly. It is beyond question rate to say that the Republicant are stronger in this Stad, outside the two great cities than the Republicant are stronger in the Republicant in the Republicant in the Republicant of that the Republicant stating they ever have been been been before for as the war was longing over. The terms every Republican vote that may be cast used in stating the question are changed, against Mr. Blaine, there will be more but the question is still the same as it was than one Democratic vote cust against Mr. In 1860-04.

Whether we call it the question between that may be more about this, he shows that the large statement of the control of the control

If any Democrat doubts this, he shows that he has not been willing to, open his oyes to the facts. Undoubtedly there was in one that a considerable duther of Republicant who were dissatisfied. Lists were quickly made of these; their number was east up, and from that thee to this the Democrata's mai. Dependents thave been constantly tading away. Scarcely altown can be named, in which there were any dissatisfied in which there were any dissatisfied in which there were any dissatisfied Republicans at any time, where disastistist Republicans at any time, where the number of them, had not visibly and materally disalighted within the past few weeks.

It is probable that all the Blaims and Logar clabs in the clay, the Greenback vote will be larger than the Cleveland Military Drill Corps and Artillevy, but the excess will be drawn al. ublicant. There is no reason to suppose in General Sanderson's office while ind bithat the increase during the past four years rade was passing, and each delegation has given the Democratic party any additional to the red long and lustily as they passed the yantage outside of the two cities.
